MAILING DATE OF ACTION: August 7, 2007
TITLE: DEVICE FOR DIRECTING MORTAR
DROPPINGS/DEBRIS, ETC.
ATTORNEY DOCKET NO.: 240101 Argila Cell Weep

SECTION 132 DECLARATION

I, Louie Giaquinto, hereby declare:

This Declaration is regarding the new product which Anthony Argila has developed and is pursuing a patent for approval.

I am President of Astro Masonry Supply Company, LLC of 879 Long Island Avenue, Deer Park, NY 11729.

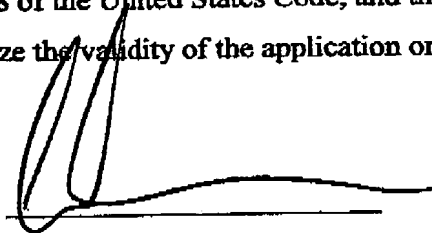

I recently spent some time with Anthony to see and discuss his Pyramid Weep device for single wythe block walls. I have to say that it is very creative and haven't seen anything in our industry with this distinctive pyramid shape. It's unique design performs an important function of diverting mortar debris and allowing any water which gets into the block wall a way to weep out. This is very important function within our industry for single wythe walls.

Another great feature with this new product is it can be easily installed with out any flashing materials. Flashing materials are used to trap and divert water to the weeps. Flashings are made of various materials such as metal, pvc plastic and rubber, all items of which mortar doesn't bond to and most of the time require a double wythe of block to create a cavity.

The Pyramid Weep Device needs no flashings or double wythe block course making it very different from any other product being sold as a weep device.

I am looking forward to its introduction into our industry and will add a great benefit to aid in the weeping of water from single wythe block walls.

I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

A handwritten signature in black ink, appearing to read 'Louie Giaquinto', is written over a horizontal line.

Louie Giaquinto,
President
